RECEIVED

FEB 28 2011

FROM: The Customers of Middlesboro, KY Water Company:

PUBLIC SERVICE  
COMMISSION

Dear sir or Madam:

We, the undersigned, are totally in disagreement with your proposed water rate increase of 50.8 percent. No new pumping or purification stations have been added; no improvement in quality, nutrition nor pipelines have recently been implemented; the water is from a local lake and only has to be piped over about a five mile area to our houses. There is no justification to have our water service rates to be more than twice as much as we are already paying. Blatant Greed and exploitation of customers do not qualify as valid reasons for an increase in rates. We, the undersigned, do affix our signature in full opposition to this unjust water Rate hike proposal.

Sincerely,

Evelyn Golden  
K. Raines  
Sarah Seacall  
Angelica Rist  
Frank Kimeace  
Jenna Kirkode  
Margie Wilmoth
